

## Summer/Fall 2010

For those that have come for Broadway and the city night life, I would recommend moving a little closer to downtown to the Carlton Hotel in midtown Manhattan at 88 Madison Avenue. Originally opened in 1904 as the Hotel Seville, the Carlton Hotel recently underwent a multimillion dollar transformation, enhancing the rich historic nature while integrating luxury services and amenities, including complimentary high speed and wireless internet access, complimentary fitness center, 42" flat screen LCD Televisions, iPod docking station and radio, as well as being 100% non-smoking and pet friendly (25lb limit). The Carlton Hotel offer special packages to accommodate your special desires from shopping to romance or check-in to one of their 625 square foot Empire Suites, including one bedroom with two full size beds and a separate parlor, and best of all, a view of the Empire State Building. Go to [CarltonHotelNY.com](http://CarltonHotelNY.com) for more information about what the Carlton Hotel has to offer.
